

To take photos or videos of Melk abbey indoors or outdoors (on abbey property), you need a photo permit.. Ideally you should apply for the permit at least 10 work days in advance.
For media coverage of current events it is also possible to apply on short notice.
To ensure a prompt reply to your request, please fill out the form completely.
Every request for a photo permit is reviewed and decided individually.
Every photograph is to be put at Melk abbey's disposal free of charge, for marketing purposes (within two weeks after the photo has been taken via wetransfer.com). If pictures are used, the name of the photographer or a name requested by the photographer is indicated.

Request for film photos
